Did you know that in many low income families, there are ZERO age-appropriate books in the home?

The Gift of Reading

How Can You Help?

Donate children’s books to United Way of York County who will place them in our Reading Ready Corners which are located across York County in places where children are encouraged to read and take a book home with them.

Children who have regular access to reading:

• Are strongly linked to improved academic performance
• Demonstrate better focus and concentration
• Improve their communication skills at a young age
